

## Series Mechanical Push Button

### Operating Description:

This line of robust push buttons is all metal construction to offer a great value against direct abuse. The switch is a phenolic enclosed precision snap action, single pole, double throw type. A passive linear bearing is utilized to reduce the coefficient of friction in the functional components. All components are machined to precise dimensions and finish. Series push buttons are ADA and MUTCD compliant.

### Electrical Specification:

- Operating voltage: 250 V( ac/dc)
- Switching current maximum: 15 amps
- Rated life: 20 X (10<sup>6</sup>)

### Mechanical Data:

- Operating pressure < 5 lbf
- Degree of protection: 65 IP

### Materials:

- Bezel: Machined 6061 T6 Al
- Actuator: Machined SS or Al
- Field terminals and mounting hardware: SS
- Gasket: solid neoprene
- Powder Coated: Yellow (Y), Textured Black (B), Green (G) standard

### Warranty:

- 3 year standard

- Round: 3"OD (2 or 4 hole)
- Rectangle: 2.8 X 4.5"
- Oval: 6.8 X 3.4"
